

**AMENDED CLAIM—MARKED UP VERSION**

A “marked up” version of the rewritten claims pursuant to 35 U.S.C. § 1.121 (c)(1)(ii), as amended effective November 29, 2000, is set forth below.

1        23.     (Amended) The computing system of claim 22 [B70], wherein:  
2        the first mode includes separating a plurality of information in each transaction into two  
3                messages and transmitting the two messages in parallel; and  
4        the second mode includes transmitting the two messages in series on a single half of the  
5                signal path.
